

SUPPLY DRIVES FOR COMMON HOPE

Working in Guatemala, where the families we serve earn less than \$2/day on average, there are incredibly diverse needs for resources.

At this time of year when everyone is focused on school supplies, we thought we would expand awareness for all of the needs of the organization.

We'd love your help getting school supplies and have developed a very specific yet robust list of all of our needs. From art supplies to Spanish books, take a look at our supply lists and decide what speaks to you.
